

The graph shows a single data series represented by a blue line. The y-axis is labeled 'critical' and ranges from 0 to 600,000,000 with major grid lines every 200,000,000. The x-axis has major ticks at 2, 4, 6, and 8. The line starts at approximately 530,000,000 at x=1, remains relatively flat until x=2, then gradually decreases to about 500,000,000 by x=4, and continues to decrease very slowly to approximately 495,000,000 at x=8.

x	critical
1	530,000,000
2	530,000,000
3	515,000,000
4	500,000,000
5	498,000,000
6	496,000,000
7	495,000,000
8	495,000,000
